"Top Hand" Cattle Feeding Industry Employee Awards

Help us tell the story of the individuals who make Kansas the best place to feed cattle in the nation.

Do you have members of your organization in the cattle, milling or maintenance department that are "Top Hands" and symbolize the values of hard work, honesty, reliability, integrity, and animal stewardship that the Kansas Cattle Feeding Industry was built on? If so, tell us what makes these individuals stand out from the herd in 100 words or less.

Top hands will be recognized in both the cattle and milling/maintenance divisions. A representative of the nominating feedyard and the award recipient must be present to accept awards.

Nominations are due April 27th, 2012. Submit nominations via e-mail to:

jwaggon@ksu.edu or by mail to
Dr. Justin Waggoner, K-State Extension Beef Systems Specialist, 4500 E. Mary St., Garden City, KS 67846.
